TODD MERRILL, US

This New York gallery run by Todd Merrill has been the foremost promoter of modern and postmodern American studio artisans such as Paul Evans, Vladimir Kagan and Paul Laszlo for almost 20 years. Since 2008, Merrill has commissioned new furniture alongside his own. For his PAD debut, statement pieces teeter between design and art, from a textured metal cabinet by Jean-Luc Le Mounier to the 'Ethereal' sculptural sycamore and acrylic console (pictured) by British designer Marc Fish.
